

DOG SOLUTIONS

Space Saver Kennels

Mason's innovative Space Saver Kennels provide the ultimate flexibility in room configurations as it offers an overflow option for boarding, dogs can be isolated as needed or the system can fold up quickly to change the usage of the space. These collapsible kennels are perfect for pet resorts that want to customize doggie daycare space.

Mason's Space Saver Kennel is highly durable, extremely functional, and secure enough to keep the most playful pet safe. The versatile system is quick and easy to set up or fold down.

Mason's Space Saver Kennel uses the existing floor with Mason's patented Silvis Seal™ to prevent cross-contamination. This eliminates the possibility of diseases that can be spread from a flooring system and ensures the area is easy to clean.

Standard sizes are 3' x 3 or 4' x 4'.

The upper section can be designed with stainless steel wire, bone grid or a solid material (FRP, Wilsonart or stainless steel over Polycore). The bottom section can be designed with FRP, Wilsonart or stainless steel over Polycore.

The system requires a flat solid wall.
