

MEDICAL

Clinical Education

Care for your patients with confidence.

When it comes to implementing new medical devices, we know proficiency is best achieved with proper training and education. Midmark Clinical Education is here to meet those needs. Because at Midmark, we believe that who's using our equipment and technology is every bit as important as how and why it's being used.

Midmark Clinical Education Services

The Midmark clinical education team is led by professional clinical educators who specialize in proper device use and workflow efficiency within your facility. To help ensure Midmark devices are well understood by those who use them, Midmark educators have clinical backgrounds and receive intensive equipment operation instruction. **You can trust in our expert educators to assist you in implementing your Midmark devices.**

IQVITALS® ZONE™

MIDMARK® DIGITAL VITAL SIGNS DEVICE

MIDMARK® DIGITAL ECG

MIDMARK® STEAM STERILIZERS

QUICKCLEAN® ULTRASONIC CLEANERS

WE CARE ABOUT YOUR SUCCESS

That's why we provide a variety of options to accommodate your needs, as well as remote correspondence and post-educational follow-up to help ensure successful implementation.

Virtual Diagnostics Clinical Education

FLEXIBLE EDUCATION TO FIT YOUR SCHEDULE

A virtual session with a member of our clinical education team is available with your device. This includes a product capabilities demonstration, EMR workflow education and Q+A session using the technology platform of your choice.

Continuing Education Opportunities

Enhance your professional journey with on-demand CEU seminars covering pertinent topics, promoting ongoing growth and expertise in your field.

Onsite Diagnostics Clinical Education

We know that every facility has different needs. In-person, onsite clinical education is available if you would like a hands-on experience in your patient care environment. This gives us the opportunity to discuss clinical workflow and how our devices function at the point of care.

01 Step through the process of accessing the patient chart, acquiring an ECG, performing tests and saving data to the patient chart.

02 Set the foundation for better care with a more efficient vital signs workflow and consistent blood pressure acquisition.

To discuss the best education option for your team, contact your Midmark Representative or email: medicalclinicaleducation@midmark.com

Virtual Instrument Processing Clinical Education

FLEXIBLE EDUCATION TO FIT YOUR SCHEDULE

A virtual session with a member of our clinical education team is available for all instrument processing products whether recently purchased or an established customer.

Continuing Education Opportunities

Enhance your professional journey with on-demand and CEU seminars covering pertinent topics, promoting ongoing growth and expertise in your field.

Onsite Infection Prevention Clinical Education

At Midmark we understand the importance of instrument processing techniques and best practices as outlined by the CDC Guideline for Disinfection and Sterilization in Healthcare Facilities¹ and ANSI/AAMI ST79 steam sterilization standards.² That's why we offer hands-on education for your sterile processing environment that goes beyond standard training to meet facility needs.

Review and establish instrument processing procedures to ensure patient safety by creating a workflow from the point of use to sterile storage for a more compliant sterile processing area.
