Midmark Multiparameter Monitors

Safer, More Efficient Anesthetic Procedures

Leveraging decades of clinical experience responding to common anesthetic issues, Midmark Multiparameter Monitors are designed to help avoid anesthetic complications.

Help your team gain confidence in their anesthesia delivery skills.

- 01 BEST-PRACTICE REMINDERS Improve team compliance and help promote safer, more efficient procedures with the built-in pre-procedure checklist, CO₂ soda lime absorbent reminder and NIBP best practices reminder.
- 04 ENHANCED BP FEATURES Cardell[®] BP Technology includes veterinary-specific algorithms that are validated as accurate for anesthetized cats and dogs in peer-reviewed studies. An added

screening mode provides more

precise readings for awake patients.

02 ECG + CO, CATALOGS

ECG

05 ALARM CENTER +

technical alarms.

Easily transfer anesthetic records into your practice management software.

Save time and steps in your documentation process by easily transferring vital signs data, ECG waveforms, notes and more from your monitor to the patient's medical record with the Midmark Anesthetic Record Interface (ARI).

Visit midmark.com/ARI or scan the QR code to secure your annual software subscription and schedule installation and onboarding support.

*License fees include the Midmark Anesthetic Record Interface, remote software installation and ongoing user support. One license is required per facility, regardless of the number of monitors used. There are no additional per-user fees.

Changes in waveforms can be the earliest signals of complications. Use the integrated waveform catalogs to quickly match abnormal waveforms to patterns of common anesthetic occurrences.

TROUBLESHOOTING GUIDE

Quickly manage technical and physiological alarms with the built-in alarm center. Reference the built-in troubleshooting guide for

Enjoy special introductory savings on your first-year subscription.*

03 CUSTOMIZABLE USER DISPLAY Save up to 7 monitor configurations, customized for different users or departments with unique alarm and display settings.

06 DIFFERENT MONITOR SIZES TO FIT YOUR NEEDS

In addition to a 12" model, a compact, portable 8" model lets you bring the technology to your patients, wherever they are in the hospital.

GET THE EXPERT CLINICAL SUPPORT YOU NEED

Midmark provides comprehensive clinical support, including training from credentialed veterinary technicians and extensive online resources to help your team effectively use new equipment and deliver exceptional patient care.
